

***Publication version 1Cb (2016 ; version updates and extensions are plausible in the future)***

Please note that this publication was registered in front of a notary and therefore is protected. Moreover, my patent text already exists from 2006 (69 pages, 18 Figures) which was also registered in front of a notary in 2006.

You can notice that in this version 1Cb-A1143 of the publication the anagram aaaaabbccddddddeeeeeeeeeeffiillmnnnnnnooprerrrsstvy is present in the footer of each page. That anagram is unique to this version of the publication and thus also linked to you, as the person who downloaded this version 1Cb-A1143 of the publication. As a result of that specific anagram, you downloaded a unique version of my publication and therefore please respect the following agreements:

- by downloading this publication, you agree to send through the Contact form at the Home page of the website [www.absolute-relativity.be](http://www.absolute-relativity.be) a short mail message simply indicating me that you have downloaded your personal copy of the publication. In that way I obtain at least some feedback about the number of persons who downloaded a copy of this publication (book), thus an idea about the interest out there. Unless of course you would request me to reply to a specific question in your Contact mail, please note that I will not reply undemanded to your mail. I will of course also keep your mail address confidential and not use it in any way.

- by downloading your personal copy of this publication you agree to not reproduce any part of this publication without the written permission of the author Etienne Brauns.

- this publication or part of this publication will not be traded, be lent, hired out or otherwise circulated by you. You thus promise not to pass this publication, as downloaded by you, in any format to another person, also not through the internet, since I would like myself to keep track of the interest for this publication by others. You can print a hard copy for yourself in order to possibly enhance the reading if you would prefer to read a printed format, over the electronic reading on a computer/reader or a tablet screen. The printed copy should only be for your personal use and should not be transferred to other persons since such would inflict upon the copyright and my wish to keep track of the interest by others towards this publication. If you would be asked for your copy to be lend to the asker, please simply refer that person to the existence and the straightforward download possibility at my website [www.absolute-relativity.be](http://www.absolute-relativity.be).
