

Conditions/terms, regarding a download of my extended publication (book)

Etienne Brauns, "A shattered Equivalence Principle in Physics and a future History of multiple Paradigm Big Bangs in "exact" science ?"

Please note that all information in the publication (book) and at the website was registered in front of a notary and is, therefore, fully protected. Moreover, my patent text already exists from 2006 (69 pages, 18 Figures) and was also registered in front of a notary in 2006. Before I send a download link to obtain a copy (at no cost) of my book, you need to read, and agree to, these three straightforward download conditions/terms:

- 1) by downloading your personal copy of this publication (book) you agree to not reproduce any part of this publication without the written permission of the author Etienne Brauns.
- 2) this publication/book or part of this publication will not be traded, be lent, hired out or otherwise circulated by you. You thus promise not to pass this publication, as downloaded by you, in any format to another person, also not through the internet, since I would like myself to keep track of the interest for this publication by others. You can print a hard copy for yourself in order to possibly enhance the reading if you would prefer to read a printed format, over the electronic reading on a computer/reader or a tablet screen. The printed copy should only be for your personal use and should not be transferred to other persons since such would inflict upon the copyright and my wish to keep track of the interest by others towards this publication. If you would be asked for your copy to be lend to the asker, please simply refer that person to the existence and the straightforward download link request possibility at my website www.absolute-relativity.be.
- 3) you will thus not pass your download link of my publication (book) to another person

In order to then receive a copy (at no cost) of my book you can send me a request by clicking on this link: www.absolute-relativity.be/contact. Please fill in all Text Boxes, thus also your full name. In the Message Box you need to write the following text (please copy/paste in the Message Box this text):

I would like to obtain a copy (at no cost) of your book 'A shattered Equivalence Principle in Physics and a future History of multiple Paradigm Big Bangs in "exact" science ?'. I have read the download conditions and agree to respect all those conditions, in order to receive by E-mail a link to download the book.

I will send to your mail address your personally coded download link (valid during a week). I will keep your mail address confidential and not use it in any other way.

The Karl Popper's type of falsifications, through theoretical and experimental anomalies, of multiple contemporary paradigms based on light phenomena, can also be viewed as a video presentation. The presentation consists of a series of two videos, Part 1 and Part 2:

- the Part 1 video shows the Karl Popper type of falsification, through the proof of the existence of massive theoretical anomalies and inconsistencies, by reasoning on the basis of photons, in the views of contemporary science on light.

Part 1: http://www.absolute-relativity.be/video/Part1_Anomalies_Theortcl_E_Brauns.mp4

- the Part 2 video shows the Karl Popper type of falsification, through the proof by a straightforward laser experiment, of the existence of a massive experimental anomaly regarding the views of contemporary science on light.

Part 2: http://www.absolute-relativity.be/video/Part2_Anomalies_Exprmtl_E_Brauns.mp4

Please note that my only goal, in this all, is to have a research centre or university to re-perform my straightforward type of laser experiment. I will also halt immediately whatever never-ending discussion with paradigm defenders, who are only interested in a tenacious circular reasoning, from within their rigid paradigm boxes, and who do not want to accept the already obvious, Karl Popper type of falsification, in e.g. the video Part 1, through the proof of the existence of massive theoretical anomalies and inconsistencies, in contemporary paradigms based on light. They should read first about the research work by Thomas Kuhn, regarding the extremely rigid and tenacious character of multiple paradigms, which proved to be flawed and became obsolete during the history of science. Moreover, they should re-perform themselves my straightforward type of laser experiment and then see for themselves that the Michelson-Morley, so-called null result experiment, surely was flawed, as also explained in my book and the video Part 2.
